linkedin.com/in/muhammad-ramees

Passionate UI/Web Designer with a knack for crafting intuitive and visually appealing digital experiences. Fueled by a love for clean design and user-centric solutions, I've honed my skills in creating impactful ERP software and websites. My expertise in frontend development, particularly JavaScript, allows me to bring my creative visions to life and deliver results that exceed expectations

WORK EXPERIENCE

Front End Developer

Glaube International Pvt Ltd

05/2024 - 09/2024

Kozhikode, kerala

Achievements/Tasks

- **Design and Development:** Responsible for designing and developing websites from scratch and from templates. Utilize Figma for creating visually appealing designs and implement them using HTML, CSS, and JavaScript.
- **ERP Software Design:** Design and develop functional dashboards, invoices, and other components for the company's ERP software. Ensure seamless integration of design elements with backend functionalities using JavaScript and jQuery.
- **Frontend Testing:** Conduct thorough testing of the company's software on all updates, identifying and resolving bugs to ensure optimal performance and user experience.
- **Backend Contributions:** Collaborate with the backend team to provide logical solutions and contribute to Laravel Blade integrations, demonstrating a well-rounded understanding of full-stack development.
- **Version Control:** Proficient in using Git for effective project management and collaboration.

JUNIOR SOFTWARE ENGINEER

Brototype

08/2022 - 01/2024

Bangalore, India

Achievements/Tasks

- **Community Leadership:** Led a Telegram group of aspiring full-stack developers, providing mentorship and fostering a supportive learning environment.
- **Technical Problem Solving:** Successfully resolved technical issues for both sales and VIP client groups, enhancing customer satisfaction.
- **Content Creation and SEO:** Created and maintained engaging website content and landing pages, contributing to increased lead generation.
- **Educational Content Development:** Organized and facilitated coding sessions, as well as special classes in web design, C, Java, and Node.js, ensuring students gained a comprehensive understanding of these essential development skills.
